

VATSANABHA

✓ Regional Names of Vatsanābha

- **English** – Monks hood, Indian Aconite, Queen of poison, Womens bane, Leopardsbane, Wolfbane, Mouse bane
- **Hindi** – Bachanag, Mitha zahar, Mitha vish
- **Kannada** – Vatsanabhi
- **Marathi/ Gujarati** – Vachnaag

✓ **Botanical Name**

- *Aconitum ferox Wall.*

Wallich, Nathaniel (1786-1854)

Aconitum –

Greek *akonítī* "without dust," hence, "without a struggle, effortless," referring to the efficacy of the poison, is fanciful.
(Merriam Webster Dictionary)

Ferox - wild, ferocious, cruel

✓ **Family**

- Ranunculaceae

✓ Nirukti – Basonym of Vatsanābha

- वत्सस्य निभिरिव नाभिरस्य इति वा ।

The tuber of Vatsanabha = umbilicus of the calf.

Or

- वत्सान् नभ्नाति (णभ हिंसायाम्)

On consumption of Vatsanabha, the calf dies.

✓ Paryaya- Synonym

- Vatsanabhi
- Ksweda (क्षेडते मोहयति इति ।)
- Garala (गिरति जीवम् ।)
- Marana
- Pranaharaka
- Visha
- Visham ugra
- Amruta
- Maha aushadha

✓ Reference in Nighantu and Brhatrayi

- Kaiyadeva Nighantu – **Sthavara Visha** (Mishraka Varga)
- Dhanwantari Nighantu – **Sthavara Visha** (Mishrakadi Varga)
- Bhava Prakash Nighantu – **Dhatu-Upadhatu-Rasa-Uparasa-Visha-Upavisha adi Varga**
- Raja Nighantu – **Maha Panchavisha** (Mishrakadi Varga)

- Charaka Samhita – **Sthavara Visha** (Ch.Chi.23/11)
- Sushruta Samhita – **Kanda Visha – Sthavara Visha** (Su.Ka.2/5 – स्थावरविषविज्ञानीयकल्पः)

Habitat

- Found in high altitudes – Himalayan region.

Morphology

- Habit — Herb
- Stem — Erect, slender,
covered with hairs (upper part),
glabrous below
- Leaves — सिन्दुवारसदृक्पत्रो (Nirgundi – *Vitex negundo*)

- Inflorescence — Raceme
- Flower — Blue-purplish, slender pedicel
- Roots — वत्सनाभ्याकृतिस्तथा |
- Fruit — Follicle

यत्पाश्वे न तरोवृद्धिर्वत्सनाभः स भाषितः || १०७

Useful Part

- **ROOTS**
- Macroscopic (API V.2)

Roots paired, occasionally separated due to breakage,

Shape	- ovoid, conical, tapering downwards to a point, 2-4.5 cm, rarely 5 cm long, 0.4 - 1.8 cm thick, gradually decrease in thickness towards tapering end;
Surface	- wrinkled longitudinally and transversely, rough due to root scars;
Color	- dark brown to blackish-brown;
Fracture	- cartilaginous, hard and white within the cambium ring and brownish outside cambium;
Odour	- indistinct,
Taste	- slightly bitter followed by a strong tingling sensation, poisonous.

Types

- Acc. To R.R.S.:

	Color	Karma
1. Brahmana	White	Marana
2. Kshatriya	Red	Rasa karma
3. Vaishya	Yellow	Kshudra karya / Sadharana karya
4. Shudra	Black	Rasayana

- Acc. to Ayurveda Prakash:

1. Shukla
2. Krshna

Phytoconstituent

Diterpene alkaloids :

- Aconitine (highest concentration is found in winters)
- Aconine
- Indaconitine
- Mesoaconitine
- Delphinine
- Pseudoaconitine

Rasa Panchaka

- RASA — MADHURA (Ati Madhura – R.N.)
- GUNA — LAGHU, RUKSHA, TIKSHNA,, VYAVAYI, VIKASHI (Yogavahi)
लघु रूक्षमाशु विशदं व्यवायि तीक्ष्णं विकासि सूक्ष्मं च।
उष्णमनिर्देश्यरसं दशगुणमुक्तं विषं तज्ज्ञः॥२४॥ (Ch.Chi.23)
- VIRYA — USHNA
- VIPAKA — MADHURA

Doshakarma

- VATA - SHAMAKA
- PITTA - SHAMAKA
- KAPHA - SHAMAKA
- **TRIDOSHA SHAMAKA**
(Esp. K-V shamaka)

- Swedajanaka
- Jwaraghna
- Shothahara
(Inflammation
Chest : pneumonia, pleurisy ;
Heart – Pericarditis ;
Intestines – Peritonitis ;
Throat - Tonsilitis)
- Dipana
- Vedanahara (Vata - janya)
- Hrdaya avasadaka (Reduces Blood pressure, palpitation)
- Rasayana

Rogagnata

- Jwara
- Shotha
- Agni vikara
- Vedana yukta vikara

Amayika Prayoga

- **Intolerable pain** – Dhattura patra swarasa + Vatsanabha churna (E/A)

Caution – Not to be applied in vrana and kshataja condition.

When applied on head in case of shira shoola, care should be taken that it shouldn't fall on eyes.

C/I – Pitta Prakruti purusha

- **Vedana shamaka –**

Dashanga lepa (1 tola) + Vatsanabha (1 masha) + Dhattura patra swarasa (E/A)

- **Shirashoola -** a. Yashtimadhu churna + $\frac{1}{4}$ p Vatsanabha churna (E/A)

- b. Pradhamana nasya (dose – 1 sarshapa =)

- **Jirna Jwara –** Churna of Lodhra + Chandana + Vacha + Vatsanabha with Sugar, Ghee, Honey or Milk. (A.S.Ut.48)

Ekala Prayoga

- Sarvaroga : Vatsanabha + eq. qty of Tankana + 2p maricha (Y.R.)

Toxicity

- According to Acharya Sushruta :

ग्रीवास्तम्भो वत्सनाभे पीतविण्मूत्रनेत्रता || १२ || (Su.Ka.2)

- According to Shri Sadananda Sharma (R.T. – 19th)

अविशुद्धं विषं दाहं मोहं हृद्गतिरोधनम् ।

Toxicity

Stage/ Vega	Symptoms
1 st	Twak Vikara
2 nd	Vepathu
3 rd	Daha
4 th	Vikrut avastha (Gyanendriya)
5 th	Phenodgama
6 th	Skandha bhanga
7 th	Jadyata
8 th	Marana

वेगाश्वाष्टौ प्रजायन्ते सहसा विषशीलिनः ।
प्रथमे त्वग्विकारः स्याद्वितीये वेपथुर्भवेत् ॥२८॥
दाहो वेगे तृतीये स्याद्वतुर्थे विकृतो भवेत् ।
फेनोद्वृतिः पञ्चमे स्यात्स्कन्धयोर्भङ्गता ततः ॥२९॥
जाड्यता सप्तमे वेगे चाष्टमे मरणं ध्रुवम् ।
एवं ज्ञात्वा वरारोहे प्रतीकारं समाचरेत् ॥३०॥ (R.R.S.)

Signs and Symptoms

System	Signs and Symptoms
GIT	Bitter-sweet taste in the mouth, initially intensive burning and tingling on lips, mouth and throat, salivation, dysphagia, nausea, vomiting, pain abdomen, gradually feeling of anesthesia and numbness supervenes in upper GIT.
CVS	Hypotension, chest pain, palpitation, bradycardia, sinus tachycardia, pulse is slow, feeble and irregular.
CNS	Vertigo, restlessness, headache, giddiness.
MS	Weakness of the muscles of the limbs with twitching and spasms.
RS	Respiration is slow, laboured and shallow.
Ocular	Pupils alternatively contract and dilate. Diplopia and impaired vision occurs.
Others	Temperature is subnormal and skin is cold.

Fatal Dose

- Root : 1-2gm
- Pure aconitine : 2-5mg

Fatal Period

- 2-6 hours

Management

Ayurveda

- Antidote – Tankana (+ Ghritha)
- Acc. to R.R.S. – Upto 5th Vega,
Management is possible.
- Honey+ Ghritha + Arjuna twak
(Antidote)
- Vamana

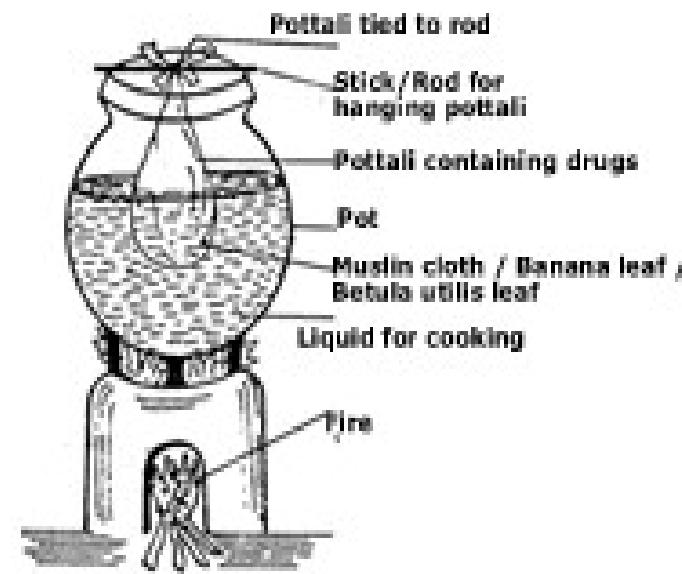

Modern

- Gastric Lavage
- Symptomatic supportive Rx–
- Close monitoring of vitals
- Bradycardia – 1mg atropine

Shodhana / Purification

- 1st Method – Vatsanabha cut into smaller pieces + **soak** with fresh gomutra x3days.
Daily morning, fresh **gomutra** should be replaced.
During day – keep open under hot sun.
During night – cover with lid.
4th day – remove external skin and dry completely under hot sun and store.
- 2nd **Method** – **Swedana** in dolayantra with **Godugdha**, 1-2yama.
- 3rd **Method** - **Swedana** in dolayantra with **Ajadugdha**, 1 yama.
- 4th **Method** - **Swedana** in dolayantra with **Mahisha dung**, 1 yama.

{Y.R.}

Matra – Therapeutic Dose

1/16th to 1/8th ratti (8-16mg) {R.T.}

Formulation

- Aindra Rasayana
- Mrutyunjaya Rasa
- Anand bhairava rasa
- Sanjeevani Vati
- Tribhuvana kirti rasa
- Hinguleshwara rasa
- Vatavidhwamsa rasa
- Kaphaketu rasa

Summary – Discussion- VATSANABHA

VIDARI

Presented by – Dr. Aditi Gandhi, Final Year Post Graduate Scholar

Department of Dravyaguna Vijnana, SDMCAH, Hassan

Regional Names

- English – Indian kudzu
- Hindi – Bidarikand, Bilaikand, Bankumara
- Kannada – Gumadi gidda, Nelagumbala gudde
- Marathi – Bhuikohala, Ghodvel
- Gujarati – Bidarikand, Bhoikolu, Sakharvel, Vidarikanta

Botanical Name

- *Pueraria tuberosa* (Roxb.
ex Willd.) DC.

Roxburgh, William (1751-1815)

Willdenow, Carl Ludwig (1765-1812)

Family

- Papilionaceae

Nirukti- Basonym of Vidari

- विदारयतीव भूमिमिति ।

Tubers of Vidari becomes/ grows very big inside the soil.

Or

- विदार्य भक्ष्यते इति विदारी। 'दृ विदारणे' ।

It is cut / chop (vidarana) into piece and consumed (bhakshana)

Paryaya- Synonym

- Bhu-kushmanda
- Shukla-kanda
- Kshira-shukla
- Palashiki
- Ikshu-gandha
- Swadu-kanda
- Vrshya-kanda
- Gajavajishtha
- Rshyagandhika

Gana Vargeekarana

- Abhidhana Manjari – Vidaryadi Varga
- Abhidhana Ratnamala – Swadu Skandha
- Ashtanga Nighantu – Vidaryadi Gana
- Kaiyadeva Ni – Aushadhi Varga
- Dhanwantari Ni. – Guduchyadi Varga

Types

- Abhidhana Manjari, KN, DN. MPN. RN. –
 1. Vidari – *Pueraria tuberosa*
 2. Kshiravidari – *Ipomoea digitata* L. [Linnaeus, Carl (1707-1778)]

Habitat

Found in high altitudes – Himalayan region.

Morphology

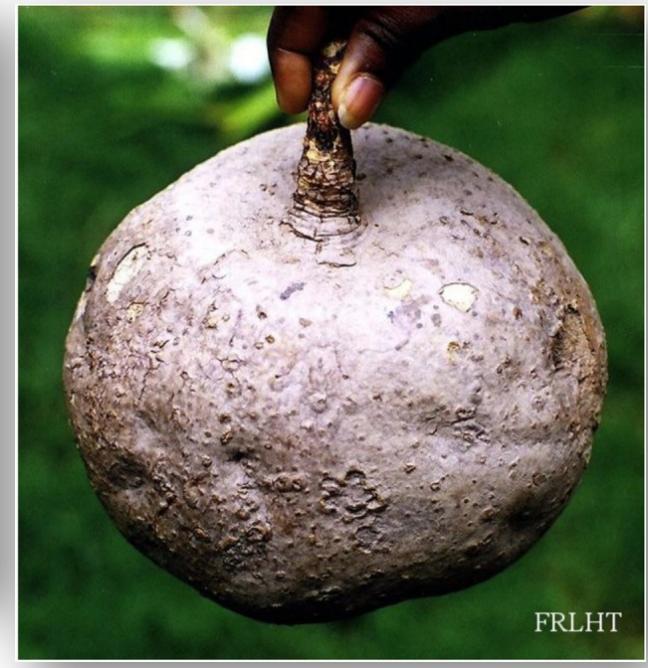

- Habit — Large twiner
- Stem — Shrubby
- Leaves — Compound, trifoliate, long petiole (10-15cm)
More or less pubescent
Shape : ovate-oblong

- Inflorescence — Raceme
- Flower — Blue-purplish, slender pedicel
- Fruit — Pods

Useful Part - **TUBER**

FRLHT

Rasa Panchaka

- RASA — MADHURA
- GUNA — GURU, SNIGDHA
- VIRYA — SHITA
- VIPAKA — MADHURA

Dosha Karma

- VATA DOSHA — SHAMAKA
- PITTA DOSHA — SHAMAKA
- KAPHA DOSHA — VARDHAKA

VATA-PITTA SHAMAKA

- Balya
- Brmhana
- Shukravardhaka
- Stanyavardhaka
- Swarya
- Mutrala
- Dahahara
- Vranya
- Bastishodhaka

Phytoconstituent

- Starch
- Sugar
- Resin
- Stigmasterol, β -sitosterol,
- Puerarostan, tuberostan

Amayika Prayoga

- In **Visarpa** : In Vata Pitta pradhana Visarpa –
Kalka (paste) of *shatavari* (*Asparagus racemosus*) + *Vidari kanda* should be mixed with *Shatadhauta Ghrita* and used as *pralepa* (local application). (Ch.Chi.21/84)
- As **Vajikarana** :
विदार्या: सुकृतं चूर्णं स्वरसेनैव भावितम् । सर्पिमधुयुतं लीढ़वा दश रुद्रिरथिगच्छति ॥ २३ ॥ (Su.Chi.26)
Vidari churna is given bhavana with *vidari swarasa* itself and should be consumed with madhu/ ghrita.
- For **Stanyavardhanartha** – *Vidarikanda churna* with sura (Chakradatta)

Formulation

- Chyawanaprasha (Ch.Chi.1.1)
 - Amalaki Ghrita (Vidari swarasa – Ch.Chi.1.2)
 - Indrokta Rasayana (Ch.Chi.1.4)
